

NO COMPASS?

Supplies:

- 3 local maps
- tape

Objective: Figure out if your map is facing the right way without using a compass!

Directions:

- 1 Arrange the 3 maps on a table in a spot with good visibility.
- 2 Make sure that only one map is facing the right way.
- 3 On each map, mark "You Are Here" in the correct location.
- 4 Have the girls figure out which one is facing the right way.

Which One?

Supplies:

- 3 maps
- tape
- compass

Objective: Figure out if your map is facing the right way by using a compass!

Directions:

- 1 Arrange the 3 maps on a table in a spot with good visibility.
- 2 Make sure that only one map is facing the right way.
- 3 Have them use a compass to figure out which one is facing the right way (the North needle on the compass will match North on the map).
