

Dear Quebec and Nunavut Unit Treasurer,

The centralized banking system is now updated to handle all aspects of HST processing and reporting for units located in Ontario. We are working on a process to handle the tax situation for your province. Even though the guideline on the website relates to Ontario, it will still provide you with information regarding Taxes. Please click this link [HST for Ontario and Nunavut Units](#).

At the mean time, please continue to process all transactions as you would normally. We will contact you once we have developed the process.

If you have any further question, please contact [Unit Finance Specialty Community Help Desk](#) or call 1-877-323-4545 ext. **2500**
