

Cookie Case Binders

1. Save your cases! (Good example of reusing, could use this in a Brownie group)
2. Cut the two large sides with the Girl Guide logo out of the box.
3. Take these two pieces and punch holes into them along one of the longer sides (have these holes match up with holes in a piece of paper).
4. Get creative; you can use binder rings, rope, lace, yarn, or anything to connect the two pieces together.

When I made mine, I also glued the cardboard to duo tangs (don't punch holes in the cardboard)

5. Put in your paper and information.

Make several and use them for different things.... Craft ideas, songbooks, photo albums, program work, etc.
