---

### **Committee News:**

- We are having all the Area Camping Advisers Join us in April, we have all attending but 1 so this is good. We hope to get all to connect to share resources and ideas

- **Project Proposal Updates:**

We are coming into our busy season.

Guide Jubilee at Camp McLean the May long weekend, is full we have had great response having 30 patrols registered.

BC Night Owls right after May 29-31 we are using many of the local Guiders instead of flying extra core staff in from down here, it's a great opportunity for the Guiders to learn skills they may not have had a chance to run a medium size event with 10 patrols registered

The inreach devices are being used by many groups would be great, it is a little challenging to get them back and forth and ready for the next group to us.

Our publications that we have been getting out have had very good reviews for all the good information they are getting from them.

We have replaced the cutlery for lets camp smore with little flashlights that are now in stock at the office.
