

Girl Guides of Canada

CAREER COMPASS

MAY 22-24, 2026 | York University | Youth aged 16-19

Why Girl Guides is hosting Career Compass

Today's youth face big questions, endless options and growing pressure about what comes next. That's where Girl Guides comes in. We've always been a space where girls build skills, make connections and grow confidence – and now we're going even further.

Career Compass is a weekend that gives youth the tools, mentorship and inspiration to move forward with confidence. Over three days, teens, mentors and experts will come together for an engaging, relevant and interactive experience, where they'll:

-  Explore post-secondary and career pathways
-  Gain real-world, future-ready skills
-  Connect with inspiring women mentors and peers from across Canada

What makes this event unique

Designed by youth, for youth – built around what teens are saying they need most

Future-focused – exploring emerging fields, today's job market and practical next steps

Mentorship that opens doors – connect with inspiring women leaders

Their adventure, their way – workshops, interactive sessions and skill-building activities

Celebrate success – wrap it all up with a gala night

Learn how Career Compass supports youth in navigating this transition – with clarity, confidence and community.

Looking ahead: Digital activities and regional summits

Career Compass is just the beginning! In early 2026, youth from Pathfinders to Rangers can join virtual sessions with guidance counsellors, career coaches and other career-focused activities.

In 2027, regional summits will bring Career Compass closer to communities across Canada, giving them more chances to explore, connect and take charge of their futures.
