Recognize, React, Repair Challenge: Interacting with our natural world

Background

Our hotter planet is hurting. The planet is not only hurting - it's also hurting the millions of people, animals, trees and oceans. This Challenge encourages all of us to look at our natural world and come together to help save our planet.

Guidelines

This Challenge has 4 themes: Environment, Education, Health, and Community.

To complete this Challenge, **Sparks**, **Brownies**, **Guides**, **Pathfinders**, **Rangers** and **Guiders** need to complete two activities per theme + two additional activities from a theme(s) of your choice (i.e.10 activities in total).

When you have completed the required activities, crests can be ordered from the Provincial Office. E-mail NL-Crests@girlguides.ca your [crest order form](#). Please share your feedback and Unit pictures on the [NL Provincial Program Facebook page!](#)

Objective

To interact with our natural world and those who live in it and don't have a voice. To be better educated on the impacts of our actions and reduce our footprint.

Outcomes

- Learn about leadership and empowerment.
- Think critically about the consequences of our actions.
- Discover ways to make the earth a better place.
- Learn to recognize that we share this planet with many other species – so let's learn how to best protect it!

Girls First Program Connections

Wondering how the activities in the Recognize, React, Repair Challenge fit into the Girls First Program? Below are the connections between the Challenge and the Girls First Platform Program. If you find other connections to your program, please feel free to give your girls credit for them. This is not a comprehensive list, feel free to apply your activities to other parts of the program as you see fit. Remember that each activity you complete can accomplish multiple parts of the program.

If this event is organized by a District or Area, then the activities will involve bridging and count for program requirements.
