GENERAL INFORMATION FOR ALL PROVINCES:

1. Units without a contact Guider:

As mentioned in the previous communications please make sure that all Units including Special Ops Units in your province have a contact Guider assign in the iMIS database. Cookie all stars registration cannot be processed for these Units as there will be no valid mailing address for the rewards. The system will not be able to select those Units for mailing reports and rewards will **not** be shipped.

- a) A list of Units without a contact Guider (if applicable) will be sent to each of you directly in order to have the iMIS information updated.

2. Extra Ops and Mosaic Units

In the previous communication to the network it has been emphasized that all “special Units” should be registered in iMIS in order to enable the Unit contact Guiders to easily register girls if needed.

If it has not been done yet please make sure that all Special ops and Mosaic Units are in the iMIS database regardless of their intention to register for cookie all stars.

- b) A list of the Units from both categories that have not yet been updated in iMIS will be provided in a separate email to each of you separately **if required**.
