

E-Learning

Girl Guides of Canada is proud to offer an alternative training format for our adults. E-learning is a flexible learning option that goes beyond putting a regular document online. E-learners receive information through slides, pop-up text boxes and audio-video clips.

The course content and the learning process for E-learning modules are similar to the face-to-face training: the same information is covered in easy-to-follow sections. To check the E-learner's knowledge, each section ends with a Q&A. If something is unclear, the E-learner can go back and re-visit the material before starting the next section.

To register for E-learning in Nova Scotia, please ask your commissioner or Training Adviser to contact elarning@girlguides.ns.ca

Information required when contacting:

- Name
- Membership ID
- Email address
- District and Area
- Modules you wish to register for

Instructions and access information will be sent directly to the Guider.
