

5: Pathfinders

Pathfinders, a program for girls aged 12-15, was started in 1979.

In 2006, the program for this age group received a major revision. Nine program “Areas” were established, and within these Areas between four to twelve “Modules” were attached. There is a badge for each of the 63 Modules, indicating completion of the activities.

These badges are very colourful, and it is therefore difficult to describe them as fully as the pre-2006 badges. However, with the help of the brief description, and the coloured images provided, identification should not be difficult.
