

Wax Paper Leaf Bookmark Instructions

1. Go out and ask each girl to find a dried autumn leaf.
2. Place each leaf between two sheets of wax paper.
3. You've made a wax paper-leaf sandwich.
4. Place one tea towel below the wax paper-leaf sandwich and one above.
5. Iron over the tea towel. This will set the leaf in the wax paper.
6. Cut out the leaf from the wax paper to make a bookmark.

If you don't want to use an iron and wax paper, you can place the leaf on a piece of bookmark-shaped cardstock and use contact paper to seal the leaf and cardstock together.
