

## Tarp Soap Race Instructions

1. Using tent pegs stake a tarp out on a flat bit of ground.
2. Squeeze some liquid soap around on the tarp and slosh a bucket of water or two over it.
3. Line the girls in two teams on the sides of the tarp.
4. Each team member is given a number so their counterpart is diagonal from them.
5. Place a bar of soap in the middle of the tarp and call a number.
6. The first girl to cross the soapy tarp and grab the soap and return to their place wins.
7. The bigger the tarp the funnier it is.
