Subheading: Lego Motion Kits

Stack Bricks Spark Minds Crest

Bring a hands-on building experience to your unit. Lego Motion kits contain a fun "build your own mini-fig" worksheet for each youth in your unit, and enough Lego bricks and instructions to do a variety of cool motion-based activities! Best of all, once you've completed your meeting, you can request the watershed wonders crest for your unit at no cost!

These kits are primarily aimed at Sparks, Embers, and Guides, and can be used towards the program requirements of the Design Space and Art Studio badges.

Lego Motion Kits will be available for pick-up in Regina and Saskatoon starting in October 2025 and can be booked through the Property Booking forms for Regina and Saskatoon. They will be available to be shipped throughout Saskatchewan (at no charge) in December 2025 (keep an eye on your Guidepost for booking details)
