

Tissue Box Basket

I am a Spark and Brownie leader from Oshawa, Ontario.

Recycling is a big part of my crafting ideas.

Required:

- 1 empty tissue box
- stapler,
- tape
- shredder paper (paper already sent through a shredder)

Steps:

- Take the tissue box and cut out the top portion (the one with the hole).
- Cut down one long side of the top (to make handle).
- Staple or tape the stripe across the remaining tissue box.
- Place the shredder paper inside.
- For additional decorations..... stickers die cuts markers etc.

We had one of the Spark helpers go outside and hide plastic eggs filled with stickers, rings, spark bracelets throughout the yard.

Each egg had a girls name on it (so no one did without and the girls learned to recognize names of friends).

Everyone had a wonderful time.
